TRUMP OUT

END THE HOSTILE ENVIRONMENT

Trump wants to come to Scotland, so from all across Scotland we're telling him: he and his politics aren't welcome here.

We will be opposing Trump's racism and showing solidarity with all the people and groups he's attacking. We need to send a message to Theresa May and politicians across Europe - including here in Scotland - that we won't stand for their attacks on migrants and Muslims. Trump is bad enough, but we can't let opportunist and racist politicians here take inspiration from him.
